

**Dear Parent,**

The number of Pertussis (whooping cough) cases has more than doubled in the state of Ohio since 1998. Due to this increase, the Director of the Ohio Department of Health signed a new school immunization requirement effective 2010-2011 school year and each year thereafter:

- **One booster dose of Tdap (Tetanus, diphtheria and acellular pertussis- adolescent and adult formulation) or Td (Tetanus, diphtheria adult) vaccine is required prior to entry into 7th grade.**

You can take your child to their primary physician, or attend any of the clinics listed below. Please take this form with you to your appointment and be sure to ask if there are any other vaccines your child may need. **Children attending the clinics below, must be accompanied by a parent or guardian, and bring a shot record.**

**Alliance City Health Department**
